

NEW

Concentration of **No.1** dispensing know-how

- Less edit time
- Intuitive drawing of program
- Easy editing for beginners

Rectangular pattern input

A dispense pattern can be entered into a captured work photo.

Plane dispense pattern input

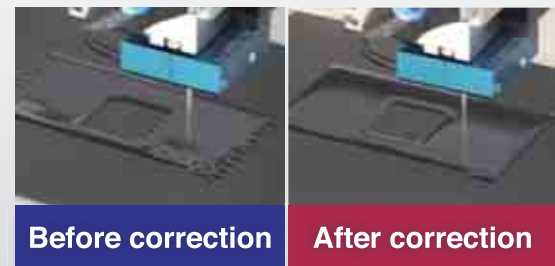

A plane dispense pattern can be also automatically created just by clicking.

Handwriting input, *Mu-Sketch*

A program can be created with the feeling of a sketch on the touch panel.

Deviation correction

Before correction

After correction

A coating edge can be evened just by clicking.

Demonstration in action! Please try our neo-sensory dispensing pattern edit.

3 major functions

- 1. Pattern generator** automatically forms chip pattern on wafer
- 2. Masking mode** automatically excludes dispensing prohibited areas
- 3. Replication/rotation/inversion function** forms staggered arrangement and performs multiple workpieces automatically

4 new operations

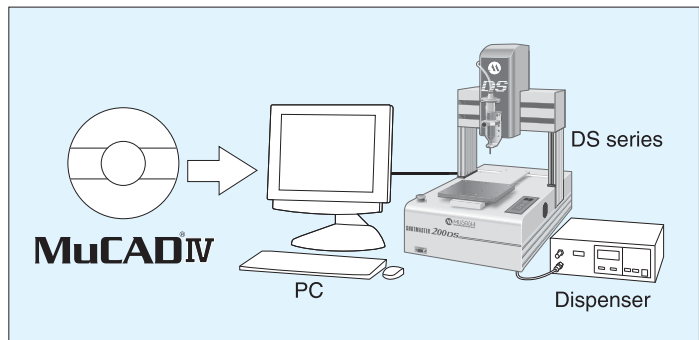

- 1. Object editing** function with a simple and useful right-click
- 2. Thread cut editing** function eliminating puddles at dispensing start and stop points
- Addition of frequently used functions on the **toolbar**
- Windows 7 compatible (Japanese/English/Chinese)
